## **Candidate's Statement (reproduced exactly as submitted):**

I applied for this position because I was taught as a youth that Public service was one of the most honorable aspirations in life. I have found that it allows me to associate with some of the finest people in the community.

I will attempt to do a thorough evaluation of each issue that comes before the city council and try and make a decision based on what seems to be in the best public interest. Since the mayor has no vote except when there is a tie, I will try and give my best advice to the city council members. My philosophy has been that unless I consider the issue extremely important, when there is a tie vote I will withhold my vote because I feel most decisions should have majority consensus.
