Candidate's Statement (reproduced exactly as submitted):

Holding public office is a responsibility that I take seriously; but it is important to understand that the economic uncertainties that continue to face Soldotna, and communities across Alaska, require the full and immediate attention of all residents.

If elected to serve the on the Soldotna City Council once again, I will continue to seek out the participation and input of our community in all decisions.

Please join me in working together for a better Soldotna.
