Candidate's Statement (reproduced exactly as submitted):

I am Paul Whitney candidate for re-election to Soldotna City Council Seat A. Our family has lived in Alaska now for 43 years and moved to Soldotna in 1989 where we built our current home. Both our children graduated from SOHI and they continue to live here with our six grandchildren.

I have served on the City Council for five years and though at times it has been challenging it has also been very rewarding. There are many challenges facing us and I would like to continue serving you and see our community grow in a responsible manner, help shape and guide our community into the future, maintain our quality of life and continue our low mill rate.

We need to look at expanding our city services to include extending water, sewer and roads to the areas not currently served and provide the needed upgrades to our existing infrastructure allowing for future growth. Economic growth is vital to our community and every effort needs to be made to attract new businesses and promote existing businesses.

Most importantly, with more opportunities available in Soldotna our children and grandchildren will have a brighter future.
